

**IN THE CLAIMS:**

Please amend claims 5 and 11, and add new claims 14 and 15 as follows:

–5. (Amended) The canned motor-pump's structural improvement according to claim 1, wherein the diameter of the bottom edge of the inner shell is approximately larger than the outer distance of the inner shell, such that the inner shell has an inclining cone surface with narrow upper side and wide lower side.

11. (Amended) The canned motor-pump's structural improvement according to claim 7, wherein the diameter of the bottom edge of the inner shell is approximately larger than the outer diameter of the inner shell, such that the inner shell has an inclining cone surface with narrow upper side and wide lower side.

14. (New) The canned motor-pump's structural improvement according to claim 3, wherein the diameter of the bottom edge of the inner shell is approximately larger than the outer distance of the inner shell, such that the inner shell has an inclining cone surface with narrow upper side and wide lower side.

15. (New) The canned motor-pump's structural improvement according to claim 9, wherein the diameter of the bottom edge of the inner shell is approximately larger than the outer diameter of the inner shell, such that the inner shell has an inclining cone surface with narrow upper side and wide lower side.--
